

PHASE Associates is proud to announce our

This past April marked our milestone. It has been an honor working with you and we thank you for your support.

PHASE ASSOCIATES WELCOMES NEW STAFF

It is our pleasure to announce that we have added two new staff members to PHASE Associates. We welcome **Christine M. Shourt** and **Alana Jimenez as Industrial Hygiene and Safety Consultants**. Both join the team at PHASE Associates to strengthen and expand PHASE Associates' value in Environmental Health, Safety and Industrial Hygiene services.

Ms. Schourt has over six years of Occupational Health and Safety training experience. Her impressive background starts with her serving six years with the United States Air Force, Joint Base McGuire-Dix-Lakehurst, NJ as a Bioenvironmental Engineering Journeyman. There she managed three personnel and was responsible for water sampling, generating Occupational Health Workplace Surveillance reports, emergency response and other related safety training. She was a recipient of the John L. Levitow Award for outstanding leadership qualities and academic achievement during Airman Leadership School attendance. Her military background will be beneficial to PHASE Associates since we conduct work for the federal, state and local governments. This past December, she assisted Gary Schwartz in conducting an extensive Industrial Hygiene survey for the National Guard. This spring, Ms. Shourt graduated from Rutgers University with a Bachelor of Science degree in Environmental Science.

Ms. Jimenez has interned for PHASE Associates for over a year. She has assisted with respiratory fit testing, noise dosimetry testing, personal and area air sampling, mold investigations and industrial hygiene surveys. Ms. Jimenez has proven herself to be an asset to our company. She graduated this spring from Rutgers University with a Bachelor of Science degree in Environmental Science. Additionally, she played on the Rutgers' women's soccer team for all four years as a goalie.

National Safe + Sound Week

June 12-18, 2017, sponsored by NIOSH, OSHA, AIHA and ASSE to promote EHS programs. PHASE Associates can help you plan and coordinate appropriate EHS programs and training specifically conducting noise dosimetry, sound level mapping and sound level monitoring.

NIOSH Buy Quiet Program

National Institute for Occupational Safety and Health (NIOSH) developed a prevention initiative called **Buy Quiet**. This program is to help companies reduce worker noise exposure by encouraging companies to purchase or rent quieter machinery and tools. Noise-induced hearing loss is one of the most common work-related illnesses in the United States.

About PHASE Associates:
